

Three Essential Checks Before Using Your Geiger Counter

STEP
01

Is The Geiger
Counter's
Calibration
Valid?

Check the calibration
sticker or certificate to
ensure the meter's
calibration is valid.

Is The Geiger
Counter
Responding
Appropriately?

Using the check source on
the Geiger Counter, ensure
that the meter responds
appropriately.

STEP
02

STEP
03

Are the Batteries
Operating
Within the Test
Range?

Using the Battery Test
option, check to ensure
the batteries are operating
properly.
